LOCAL BUSINESS IN GOOD SHAPE

Salt Lake Retailers Enjoy an **Exceptionally Good Week** for August.

NO SIGNS OF DEPRESSION

BUILDING OPERATIONS IN CITY ARE PROGRESSING RAPIDLY.

Numerous firms about town are still feeling to an appreciable degree the strike of the telegraphers, but otherwise the labor situation is better than it has been all summer. Talk of hard times and of a panic continue coming from the east, principally Wall street, and Salt Lake is as steadfastly refusing to take any stock in them. Bankers are provoked over the continued discussion of a possible panic, claiming that it is being purposely prolonged to serve the interests of eastern will shortly place on deposit weekly in the financial centres of the country large sums of money to aid in moving the crops brought forth little comment from local bankers and business men.

"It has been done before and has litsignificance for us," said Frank x, president of the National Bank of the Republic, last night. They never come west or into the interior of the country with any of the money, and the only effect it has on the country at large is to ease off the money market for a As expressed in The Herald yesterday

morning, the consensus of opinion here is that money may tighten somewhat in the next few months, but beyond that Salt Lake will enjoy a big, profitable, pros-

Prices asked are about on a level with those prevailing ast year. The manufacturers are alread ehind on winter orders and it is prob able that before the fall is well along they will be swamped. The volume of is increasing rapidly along every The hardware men have had one of the biggest months in their business they have ever experienced. Implement dealers report a like condition in their business. There is a general feeling of satisfaction in all circles over future

Realty and Building.

Steel will be unloaded for the New-house structure the first of the week. Once started the engineers in charge of the work expect to have it hauled in faster than they can handle it. It will take less than five weeks, with no pro-longed delays, to set the eleven stories of steel work on both buildings. In the meantime, the foundation work on the two skyscrapers is being brought to a oint where the steel work can be set the moment it arrives.
The Judge building is progressing fair-

ly well, the shortage of brick hindering the work somewhat. The Sharp flats on Brigham street are nearly ready for occupancy. Work all over the city is progressing rapidly. Contractors are some-what hampered for want of skilled labor just at present, but not sufficiently to seriously delay operations. The progress being made with street improvements The real estate association has taken up the question of securing more houses and flats for Salt Lake. The rental sitnation has reached a critical stage. The mote houses were needed at once here to care for the hundreds of families coming nto the city every month. It is certain that not an agent in the city will guaran-tee a prospective renter a flat by Sept. I, or by Oct. I for that matter. The same is true as regards houses. Salt Lake has never known such a condition before and people have actually left town within the past three months because they could not secure suitable flat or residence accommodations and would not live at the ho tels. The association will issue a state-ment setting forth building conditions. the advantages of apartment house and residence investments here and a brief outline of the general situation, in hopes that local or out-of-town capitalists may be induced to put money in buildings here in the immediate future. Real estate men are beginning to feel

the influences of fall. Inquiry has been very brisk the past week on residence property and the dealers are having a larger demand for small store space than they have had for montus. Two wholesale tobacco companies established ern headquarters here the past week, each taking a large store and putting in ex-pensive furnishings. The volume of sales is picking up and dealers report the past en days as excellent. Values are apparfirmly established.

The lumber situation is tightening up to some extent, due to the fact that cars are none too plentiful at present, and will not be for several weeks. The railroad men declare, however, that shippers need fear no such shortage as was experienced last year.

IN SUPREME COURT, RICHARDS LOSES **FAMOUS SUIT AGAINST THE CHURCH**

After five years of litigation the supreme court yesterday ended the famous case of Joseph S. Richards against Joseph F. Smith, trustee in trust for the Church of Jesus Christ of Latter Day Saints, by a decision in favor of the church.

The original controversy grew out of an agreement entered into a number of years ago between Richards and the late Bishop Edward Hunter by the terms of which Hunter was to sell to Richards certain valuable property. Hunter died before the sale was consummated and in his will left the property to the church. Richards made a demand that it be sold to him and was refused. He then made a claim for \$55,500 damages.

Finally, on August 6, 1902, it was decided to settle the matter by arbitration, and the little-used statute providing for this form of trial was invoked, four arbitrators being appointed. They were L.

Apparently it was too early in the morning for the business world of Salt Lake to appreciate sentiment in 3:30 o'clock to conduct the funeral o songs and that record went back into its our late brother, Dr. A. M. Wheelock case with the "0" sign upon it. "Cheer Up, Mary," was the next. A young man and a girl stopped, giggled a moment and then dropped a dime into the cup and passed on. The words of the song had probably appealed to them at least 10 cents' worth. Now a musical selection.
No results. Then "Mary Is a Grand Old
Name." Result, 10 cents more dropped.
Another Sousa march and no increase of the contributions. Then came "Jerusa-lem." This proved the winner, as 20 cents were dropped into the cup during the progress of the piece.
